

SINCE 2004

**WELCOME TO**

An ISO 9001 : 2015 Certified Company

**Jay Ashapura**®  
Brass Components

Manufacturing customized solutions for various  
Precision Machined metal parts

## Jay Ashapura Brass Components

# INDUSTRY PREFACE

We are swollen with pride of our three-generation inheritance of superiority and performance.

In the world of components production for various industries, Jay Ashapura Brass Components has successfully carved out its own niche. Since our inception in 2004, we constantly endeavored to improve and excel in our field. Our seasoned workers are equally skilled and our elaborate Indian and international client base reflects our specialization in production of components and parts made of brass, copper, stainless steel and aluminum.

We at Jay Ashapura Brass Components ensure to produce at least 3Tons of parts per day while keeping it in mind to churn out our client's requirement. This makes our daily production rate apparently 20000 to 35000 pieces daily. We offer the product sizes varying from 1mm to 250mm.

Our manufacturing precision including quality control and optimum usage of innovation keeps us ahead of our competitors. We are fully equipped to deal with any kind of requirements from our clients and since inception; we have specialized in producing customized components made of Brass Turned parts as per customers specifications.

We Serve In

Certificates

# COMPETENCE

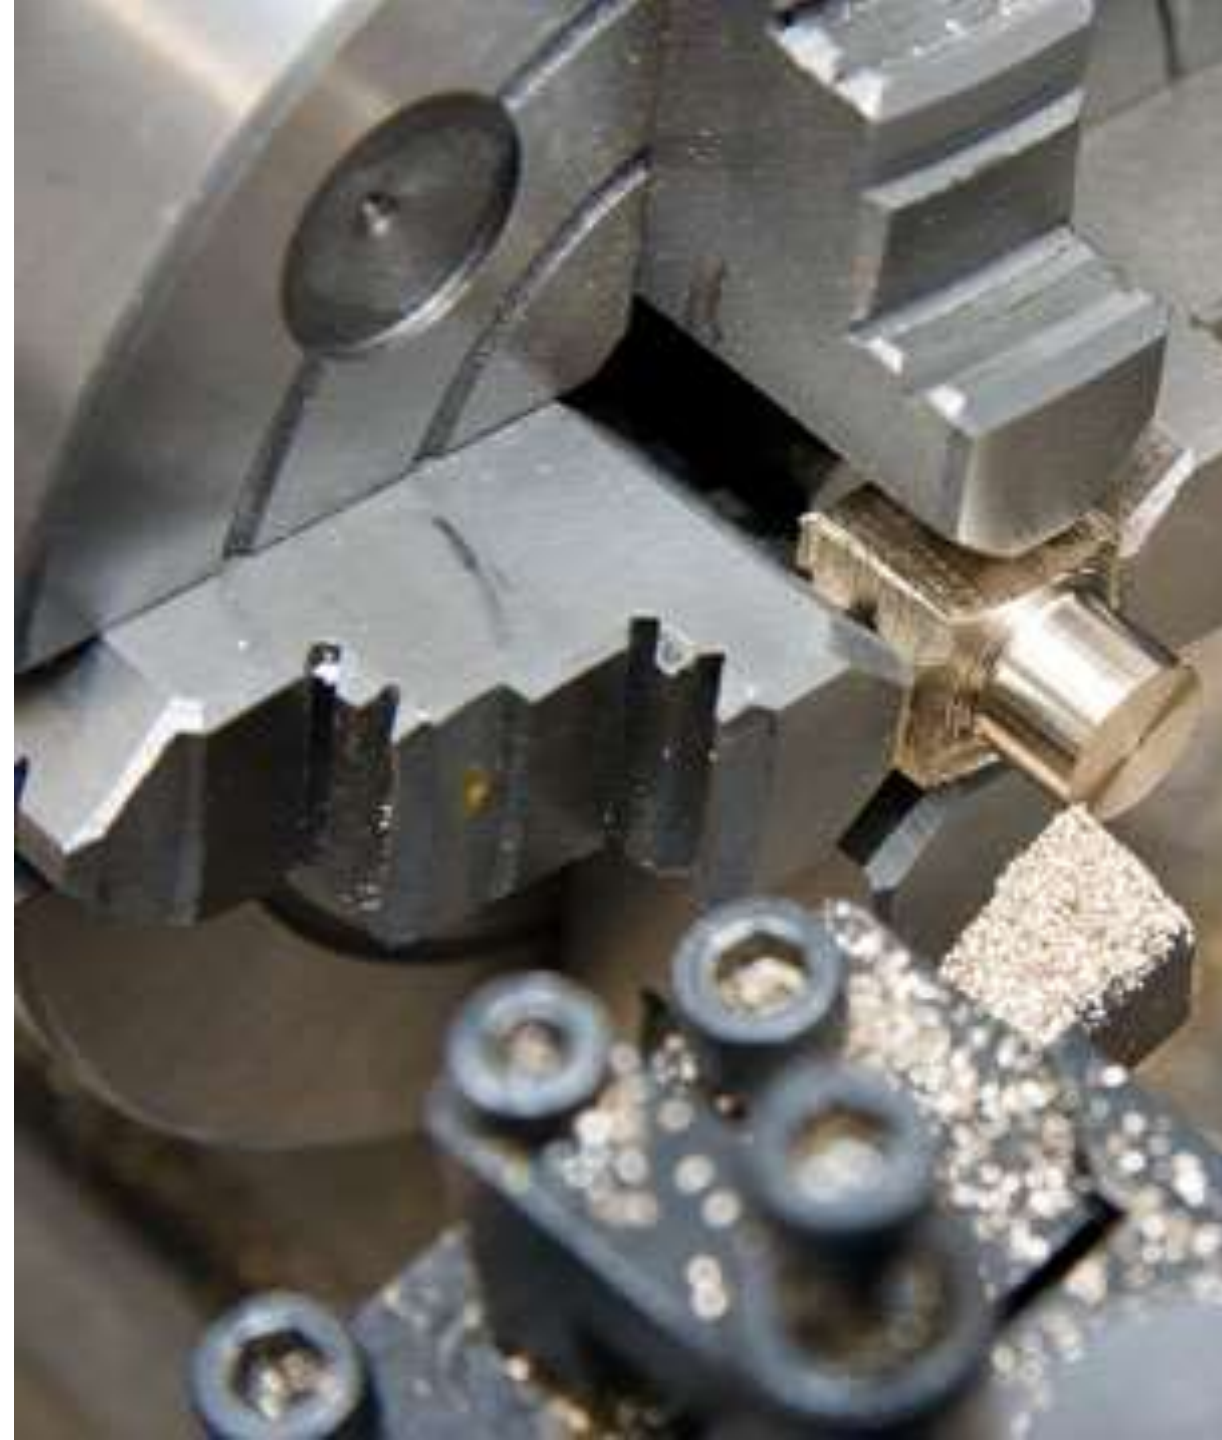

We can manufacturer anything and everything in Precision Machined parts, as per customer's requirements and imaginations. Our wide range capabilities execute economical and high quality Precision Machined metal components in any volume. We also provide drilling, tapping, threading, slotting, broaching, light milling and debarring services. We also provide Surface Treatment Facility/ Plating like Silver Plating, Zinc Plating, Copper Plating, Tin Plating, Nickel Plating, Chrome Plating, Gold Plating, Black Nickel, Buffing & Anodize facility etc... Plating, Tin Plating, Nickel Plating, Chrome Plating, Gold Plating, Black Nickel, Buffing & Anodize facility etc... We furnish below a list of machineries..

Sr. No.	Type Of Machines	Nos.
1	Automatic Turning Machine	68
2	Manual Turning Machine	27
3	Auto/Manual Threading & Milling Machine	27
4	Drilling Machine	17
5	Hand Presses	09
6	Wire Straightening Machine	03
7	Tool Grinders	06
8	Lathe 162mm	01
9	Sliding Headstock Machine	11
10	CNC Turning Machines- 200 x 500	18
11	CNC Turn mill - 200 x 500	02
12	CNC Sliding Head Machine	04
13	Tapper Machine	01
14	Punching Machine	05
15	Slot Machine	14
16	Vibrator Slot	01

# FORTE

- 50 years of admirable Experience.
- ISO Certified Company.
- Approved By NSIC - D&B, DUNS No. 67-572-4983
- Take pride of Quality
- Well - timed delivery.
- Work with Ardor.
- We = Strength.
- Tailored course of action to do good to customers.
- We can provide third party inspection report, if needed.

Products

# CNC MACHINED PARTS

Custom manufacturer of CNC screw machine products & turned parts. Working diameter 1mm to 200mm, Length up to 400mm working tolerance: +/- 0.002mm.

Products

# SCREW MACHINE PARTS

---

Custom manufacturer of CNC screw machine products & turned parts. Working diameter 1mm to 200mm, Length up to 400mm working tolerance: +/- 0.002mm.

Products

## ELECTRICAL PARTS

---

Custom manufacturer of CNC screw machine products & turned parts. Working diameter 1mm to 200mm, Length up to 400mm working tolerance: +/- 0.002mm.

Products

## **MACHINED PARTS**

---

Custom manufacturer of CNC screw machine products & turned parts. Working diameter 1mm to 200mm, Length up to 400mm working tolerance: +/- 0.002mm.

Products

# CNC PRECISION MACHINING

Custom manufacturer of CNC screw machine products & turned parts. Working diameter 1mm to 200mm, Length up to 400mm working tolerance: +/- 0.002mm.

Products

## SHEET METAL PARTS

---

Custom manufacturer of CNC screw machine products & turned parts. Working diameter 1mm to 200mm, Length up to 400mm working tolerance: +/- 0.002mm.

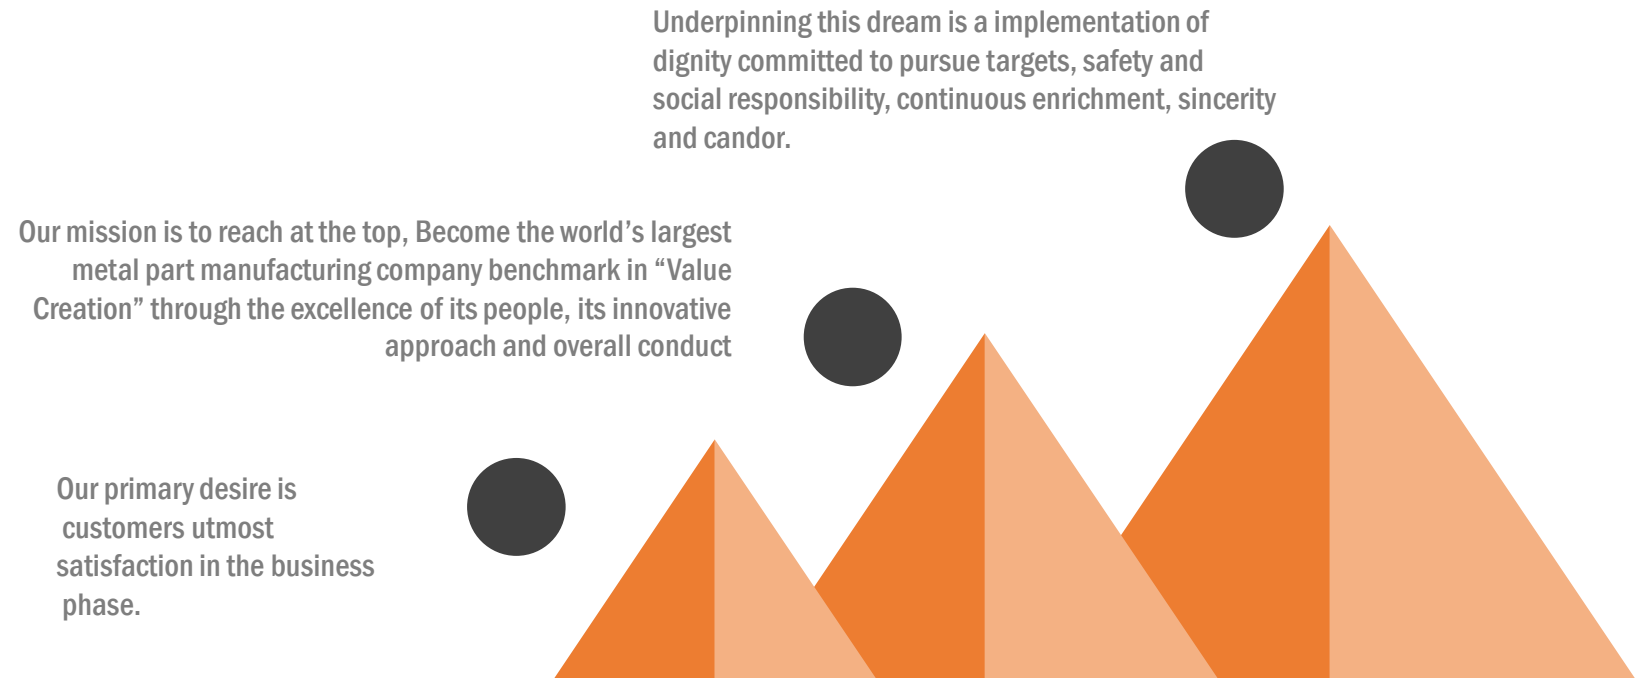

Products

## CNC MACHINED PARTS

---

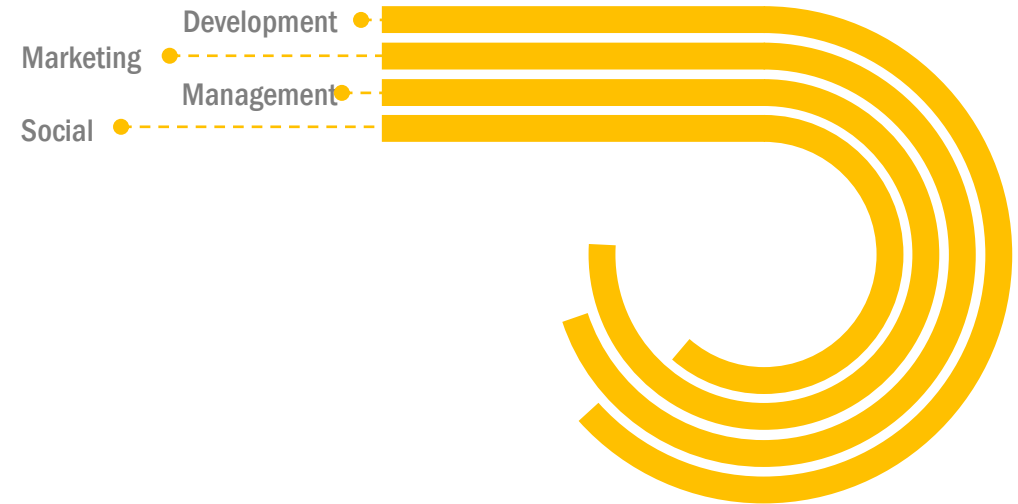

Custom manufacturer of CNC screw machine products & turned parts. Working diameter 1mm to 200mm, Length up to 400mm working tolerance: +/- 0.002mm.

# Our Aspiration

# EXCELLENCE

- We heed quality & design and develop the Precision Machined parts as per customers' Motif.
- We provide the necessary training to analyze right from the processing till dispatch of goods to all personnel who work in our factory.
- We do undertake in process and intercrosses inspections.
- We care for the equipment's calibration and their safeguarding.
- We persist regular records of quality standards, i.e. 100% Visual Inspection to ensure 100% defect free products.
- We carry inventory of materials to meet vital deliveries.
- We are having advanced technology of checking instruments and perk up this method over a period of time with latest technologies.
- Micrometer (Blade, Digital)
- Vernier (Dial, Digital)
- Gauges (Plug, Ring, Radius, Pitch, Pin, Snap, Dial, Flare)
- Profile Projector
- Sipcon Vision Measuring System
- Testers (Hardness, Roughness, Plating)

A dramatic sky with dark blue and white clouds over a coastal landscape. The sky is filled with large, billowing white clouds and streaks of darker blue, suggesting a storm or late afternoon light. Below the horizon, a body of water is visible on the left, and a coastal town or city stretches across the bottom of the frame.
